

# ARIA PARTH-30C Contact Center Suite

## About Aria

Started in the year of 2003, the company has progressed itself to become a global leader in voice processing industry. We have defined, developed and designed world-class technology integrated PC based voice processing systems, in order to serve corporate houses and simplify their business work processes. All products developed on our end are fully tested for stability and performance on various platforms like PCs and voice processing cards. Our zest to integrate innovation and high-standard technology with business processes has helped in turning PCs into, IP PBX, Unified Communication System, voice loggers and IVR systems that promise extra ordinary performance.

### PARTH 30C- Unified Communication System

Strong communication system can be used for as IP PBX , IVRS , Telephone Recording System, Conference Bridge, OBD IVRS, Contact Center Solution , Help Line System etc. The system is very useful for housing society, corporates, Customer care, small call centers, Help Line, Institutional Campus.
