

FOR SMALL, MEDIUM & LARGE ENTERPRISE

GSM Gateway, called also as GSM VoIP Gateway, is a device that make possible or direct routing between IP, GSM, Digital, and Analog networks. Termed as fixed cellular terminals, it has capability to reduce the spending of company who pays for telephony or calls from IP to GSM. It reduces the user's cost when they calling from fixed line to GSM networks. Least Cost Routing (LCR) is a core idea behind the cost saving with VoIP GSM Gateway.

Aria GSM/CDMA/WCDMA VoIP Gateway is a multi-functional product used to effectively implement the smooth transition between PLMN (Mobile) and VoIP network. The GSM gateway is designed for comfort, ease-of-use to satisfied necessary of customers.
